Solar Land Stewardship

Wisconsin Renewable Energy Summit 2021

Andy Olsen
Environmental Law & Policy Center

January 12, 2020

Solar Land Stewardship

Speakers:

- **Andy Olsen**, ELPC, Moderator
- **C.J. Koepp**, ELPC, Current solar projects
- **Rob Davis**, Fresh Energy, Pollinator-friendly solar
- **Steve Apfelbaum**, Applied Ecological Services, establishing native land cover
- **David Vetrano**, Retired WDNR Fishery Biologist, Perennial cover and water quality improvements
- **Craig Harmes**, Dairyland Power Cooperative, Utility perspective
- **Participants**

Engage!

ENVIRONMENTAL LAW & POLICY CENTER

- Please join the conversation!
- Add questions and comments in the “chat” function on Zoom.

Solar Land Stewardship

- Solar Land Stewardship encompasses many low-impact strategies:
 - Pollinator-friendly solar
 - Agrivoltaics – on (solar) farm agriculture
 - “Prairie” Solar
 - Farm-Friendly Solar
 - Low Impact Development

Farm Friendly Solar

- Blend solar into the agricultural landscape and rural economies.
- Greater value to the local community and agriculture.
- Makes solar a welcome neighbor

Conclusion

Thank you for listening!
